The Carnegie Moscow Center maintains its web site in two languages which requires accurate and timely translation of all materials: press releases, seminar reports, transcripts, etc. The Center also translates excerpts of its books from Russian into English.

The **MBS Intellect Services Translation Agency** is one of a very few companies that the center works with. Our experience with MBS has always been great, they are able to match our high quality requirements. The MBS has a network of excellent translators with various areas of specialization, texts translated into English are usually proofread by native speakers, general manager is always available to discuss any problems that may occur.

Another important issue – MBS charges rates affordable for an NGO.
